Logo Ideation

A symbol designed not just to represent a school, but to represent the foundation where knowledge shapes futures.

The Concept

The SIBA Public School logo is built from two symbolic ideas. The top form can be read as a rising sun, representing knowledge and enlightenment, or as a gear, symbolizing the structured educational system that shapes student potential. This form merges into an open book, representing learning as the foundation of every achievement. Together they create a unified academic symbol showing how knowledge and structure work together to support student growth. The circular seal completes the identity by representing trust, protection, and the institution's commitment to guiding students toward excellence.

About the Logo

The SIBA Public School logo is designed to reflect the institution's commitment to knowledge, growth, and excellence. The central symbol combines the ideas of a rising sun and an open book to represent enlightenment through education and the strong academic foundation provided to students. The surrounding circular seal signifies trust, unity, and a structured learning environment, while the laurel elements highlight achievement. Together, the identity represents a school dedicated to shaping confident learners prepared for the future.
